

## 5FT T8 Separate LED GROW LIGHT TUBE

Photo:

Dimension: L1500mm X Dia26mm

A(mm) 1498mm

B(mm) 1515mm

ITEM NO.: SC-T8ST-05

Parameter:

Lighting angle of LED: 120°

LED QTY: Single row: 120pcs Double Row:240pcs

Lifespan: >50,000hours

Worldwide Voltage: 100v-240v

Power Type: Single End Powered

Cap mode: Rota-table

PF>0.7

EF>0.9

Working environment : -20~40degrees,45%~95%RH

Working Frequency: 50~60Hz

IP Rating: IP40

Wave Length:380-840NM Full Spectrum T8 separate type led grow tube light

Power: Single Row: 24W, Double Row:48W

Color:

Full Spectrum including UV:420-430nm Red:650-660nm Blue:450-60nm

IR:720-730nm R:B=5:1

Lighting Flux: 7000Lux

PPFD(400~700nm):Single Row: 83 $\mu$ mol/m<sup>2</sup>s; Double Row: 166 $\mu$ mol/m<sup>2</sup>s

Peak Wave Length: 654nm

#### Feature

- 1 .Most cost-effective , full spectrum grow LED chip
- 2.Our full spectrum grow LED chip use original epistar led chip to ensure more stable quality .
- 3.Full spectrum suitable for all kinds of plants in different stages
- 4.Suitable for hydroponics, horticulture, green house
- 5.Suitable for plants growing, flowering and fruiting
